

TARGETING HANDWRITING Class Set ADOPTION OFFER

Targeting Handwriting Interactively

We have made **Targeting Handwriting Interactively** available as a **FREE** resource to capture your student's full attention when explicitly teaching with Australia's most trusted Handwriting Resource.

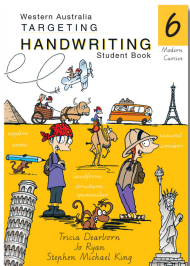

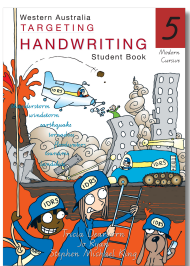

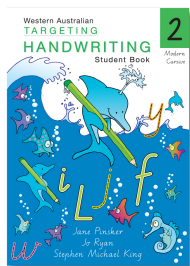

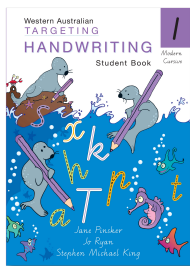

Handwriting is one of the most crucial literacy skills students will develop in primary school. To be competent writers, their handwriting needs to be fluent and legible. The teaching of handwriting is an essential part of the writing curriculum.

Targeting Handwriting is the most trusted and widely used handwriting program in Australian schools.

With editions that support the curriculum in each state, teachers know the content will give their students the best possible outcomes. Student workbooks are written for years Pre-6 and teacher guides are available as a free PDF, to ensure all aspects of the AC Curriculum are delivered with confidence and ease.

Targeting Handwriting

- Introduces each new skill sequentially
- Is clearly structured with a useful and sensible sequence
- Allows space where possible for students to copy words underneath models, so left-handers aren't disadvantaged
- Gives instructions for capitals for left-handers
- Provides assessment pages to help teachers assess specific skills, plus many opportunities for student self-assessment
